To the Independent American Patriots and Citizens of these United States

In response to "Open letter to Washington" by Misipati Semi Bird Candidate for Washington State Governor

The republican party leadership purposefully and often, does this to candidates they do not want in office. It is not ok. This is the problem with parties. They only want power. They want 'We the People' to bend the knee when they speak.

My husband ran for office, and in the vetting meetings with the county parties, every single one of the county parties asked him this question "Will you do what the party tells you to while in office?" His response was "NO, I will do what the people want me to do". Because he wouldn't conform none of the county parties would accept him.

The republican party leadership will use half-truths all the time to allow everyone's mind to go where it will and allow lies to perpetuate and grow. They will not apologize when the truth comes out. In fact, they will double down, and try to make the lie worse. They are not against ruining people's lives, even when those people are on their own side. It is very sad the party leadership is doing this to Semi Bird for Governor of Washington and allowing the members to let it go on.

We all need to stop and think, is this what we accept? Do we accept that the evil they are perpetuating is ok? Just because it's the Republican party? We got rid of the party system when we fought for this country and built it from scratch. George Washington warned us in his farewell address that if we, the nation, allow the party system to creep back into politics, it would destroy our country. Look what the party system is doing to us all? It's putting neighbor against neighbor. How are we supposed to grow our communities and show our children the right way to love and respect people if we don't do it ourselves.

Citizens, 'We the People, are constitutionally the ones in charge of our government, it is up to us, to stand up and change the track our state and country is on right now. It will be us who allow it to go further down into the incinerator to burn or to blossom back to the land that was given to us by God as a blessing to raise our children and prosper.

I know where I stand, I stand as an Independent American Patriot. I will not participate in the destruction of America through the party system. I will use my God given brain and make decisions every day of my life with the common sense that is needed to move our state and country forward to freedom, liberty, and love. I will stand with God, Family and Liberty. I will choose to fight for you and your constitutional rights, no matter how you choose to share them. I will stand for morals and righteousness.

Stand with me and stop taking sides just because that is the way it's been. Stand with me and say, I am an Independent American.

Leslie Williams

National and Executive Secretary of the Independent American Patriots
